LANGUAGES

Proficient English

EDUCATION

Harvard University, Online— *Course*

Jan 2022 - June 2022

I am a graduate of CS50. with a strong foundation in computer science, having taken an in-depth course covering topics such as algorithms, programming languages, software engineering, and web development. With experience in technologies such as C, Python, SQL, and JavaScript, I have a diverse skill set that can be applied to a range of problems in the field. I have a solid understanding of computer systems, having studied topics like memory management, file I/O, and network programming. My ability to think algorithmically and solve complex problems makes me a valuable asset to any team.

PROJECTS

[Visit my Portfolio](#) — *Website*

Take a coffee while having an in-depth look at my recent projects and experiences. My portfolio website is a great resource that showcases my skills and abilities in a visually appealing manner.

Here is the link to my portfolio: <https://ahmadinc.vercel.app>.

I also included all the approaches and best practices I follow when developing all of my projects in the github repo of each project.

I believe that my portfolio provides a clear understanding of the work I have done and how I can contribute to your organization. If you have any questions or would like to further discuss my qualifications, please don't hesitate to reach out.
