AHMAD INC.

ahmedabbainc@gmail.com · https://www.linkedin.com/in/ahmad-inc-442167245

I'm a self-thought web developer with 3+ years of experience in web development as a full-stack developer (MongoDB, Express, React, and Node). I'm Currently looking for a frontend position, and I'm ready to relocate.
My mission is not only to work with the world's best-talented people but to learn, and create more value for the company by creating simple innovative products
and services for everyone around the world.

SUMMARY

I Will focus more on creating value for both the company and the customers
using the modern best technologies in the world

SKILLS

- HTML 5
- CSS
- JavaScript
- React.JS
- Next.js
- Tailwind CSS
- Redux Toolkit
- Git
- SEO

QUALIFICATION

- Able to code a single page application (SPA) from scratch using React.JS, the world's best library, with other frameworks like Next.JS, and Tailwind CSS. And other amazing technologies.

- Solid understanding of mobile-first design concepts, cross-browser development, API implementation, and search engine optimization (SEO).

- 5+ years of Copywriting experience grants me the ability to communicate with clients and my fellow talented team, to establish the necessary requirement to complete projects in a professional and timely manner.

RELEVANT EXPERIENCE

FREELANCE WEB DEVELOPER   Nov-2020-present
Independent Freelancer

- designed and created client websites from start to finish using current technologies and design trends while optimizing content for mobile and cross-browser performance.

- Personally, consulting clients with design suggestions and hosting recommendations to create designs based on client requests and business needs.
